Crazy Ball: 3 or 4 person team. Stroke play. Each team will receive ONE special ball (deemed by tournament chairperson) called "crazy ball". Players decide the order in which the ball will be rotated to be played in group. Players take turns using the crazy ball while the other members are playing their own ball. The crazy ball net score plus one other regular net score will count on each hole. (almost like a 2 gal best ball tourney). Loss of crazy ball will DQ your team from the sweeps portion of the daily buy-in. CTP and chip-ins will still be in effect if you lose your crazy ball. Post your original score.

Strokes of Luck: 2 or 3 players will be paired with a 25 or under handicapped player(called player A). **Once per hole**, the player may elect to use player A's shot instead of her own and bring your ball up to where you chose that shot. You need to count that stroke as if you had hit that shot. If you elect not to use player A's shot anywhere on that hole and want to replay **one** of your own, your may (think of it as a mulligan-do not count the stroke and replay it). Player A just plays her normal game (with a mulligan per hole if desired. If a mulligan is used by Player A, no one may use that shot!!) So Player A may not use a mulligan if other players want to use your original shot. Lowest score wins. Both gross and Net winners. Do Not Post!
